

## Sr GIS Technician

*A unique opportunity to work in a technology focused firm based in Markham, Ontario.*

*Come work at a rapidly growing GIS and engineering firm that is staffed with industry experts, has great benefits, and prides itself on developing our people.*

### The Company

Planview Utility Services is an engineering firm that provides engineering design, sub-surface investigation, geographical information system services, and business solutions to telecommunication companies and electric utilities. Our workforce is a mix of veterans of the industry and youthful enthusiastic technical resources. We have pride in our collegial culture and host multiple regular corporate sponsored social activities. Our embrace of the use of technology plays a large part in our success.

### The Position

As a Sr GIS Technician, you will be responsible for (but not limited to):

- Managing spatial datasets and databases in a variety of GIS applications
- Creation and innovation of spatial data manipulation processes
- Problem solving using many different tools and resources
- Primary resource for troubleshooting existing processes
- Provide knowledgebase support for other staff and assistance in training and problem solving

### Resource Requirements

- Minimum 2 years of experience within the GIS or closely related industry
- Strong problem solving, troubleshooting skills and attention to detail
- Experience in creating new processes to solve complicated client driven problems
- Ability to provide concise feedback to project team on task timelines and issues
- Ability to deal with multiple projects and conflicting deadlines
- Estimation of timelines and ability to project the work required to complete tasks
- Proficient using ArcGIS environment
- Strong understanding of map topology and database integrity
- Solid data management and manipulation skills
- Experience in configuring and maintaining geodatabases
- Experience building tools or processes to improve existing or innovate new techniques
- Programming skills to build production enhancement tools in ArcGIS an asset

## Preferred Skills

- GIS experience with utility companies (i.e. electric, gas, telecom, fibre optic)
- Understanding of engineering drawings
- Working knowledge of FME
- Experience with ArcFM
- Experience with MapInfo
- Experience with AutoCAD
- Experience with SQL Spatial
- Experience with Oracle Spatial
- Experience with Web App integration
- Experience with SQL and Python Languages

## The Location

Planview Utility Services has 3 offices – Markham, London and Ottawa. Our clients and their projects are based through-out the province. This position is based out of Planview's Markham location.

## Why You Should Apply

If you like to work as a part of a team or work alone, have excellent attention to details, are interested in receiving competitive compensation, and be trained in current practices, then you should apply.

## Note

Planview Utility Services Ltd is an Equal Opportunity Employer.

In accordance with the Accessibility for Ontarians with Disabilities Act, 2005 and the Ontario Human Rights Code, Planview Utility Services Ltd will provide accommodations to applicants with disabilities throughout the recruitment, selection and/or assessment process. If selected to participate in the recruitment, selection and/or assessment process, please inform Human Resources staff of the nature of any accommodation(s) that you may require.
