

GPS SURVEYOR / FIELD DESIGNER LEVEL 2

A unique opportunity to embrace technology, travel within Ontario, and work outdoors.

Come work at a rapidly growing engineering firm that is staffed with industry experts, has great benefits, and prides itself on developing our people.

The Company

Planview Utility Services is an engineering firm that provides engineering design, sub-surface investigation and geographical information related services to telecommunication companies and electric utilities. Our workforce is a mix of veterans of the industry and youthful enthusiastic technical resources. We have pride in our collegial culture and host multiple regular corporate sponsored social activities. Our embrace of the use of technology plays a large part in our success.

The Position

As a GPS Surveyor, you will:

- Gather all data for existing attachments to hydro or telecommunications poles
- Perform Topographical surveys that provide accurate GPS data
- Perform property stakeouts
- Perform reviews of third party permits

Responsibilities

- Reports to the Manager – Utility Design
- Conducts field surveys through a variety of mediums including but not limited to;
 - Aerial Surveys
 - GPS / Topographical Surveys
 - Property Stakeouts
 - Review of third party permits
 - Responsibilities will include gathering field survey information on above and below grade infrastructure for a variety of Planview clients, utilizing Planview methodology and processes;
 - Preparation and translation of said field work to supply finished product to the project coordinator / project manager / engineering department.
 - The ongoing development of Planview aerial and topographical/GPS processes and methodologies to further develop operational efficiencies

Requirements

- E.T or other accredited designation in engineering valid in Canada or equivalent past experience
- Minimum 3+ years' experience with Topcon and Trimble devices
- Minimum 3+ years' experience completing topographical and GPS surveys
- Must be a permanent resident of Canada
- Able to lift / carry 40lbs +
- Valid G license
- Extensive travel in Ontario, requiring overnight stays is required.
- Working, reliable own car, travel daily is required as part of the position.
- Ability to work longer days, in remote areas with little to no direct supervision with benchmark deliverables met.
- Willingness to work overtime
- Must be physically fit, able to navigate easy to moderate terrains
- Able to work in a team atmosphere
- Presentable and polite as customer interaction is required
- Fluent in written and verbal English
- Past telecom or outside plant design or construction experience an asset

The Location

Planview Utility Services has 3 offices – Markham, London and Ottawa. Our clients and their projects are based throughout the province. Travel is important to this position, and you may be within the 613 area code, and through other areas of Ontario on a regular basis.

Travel is required 95% of the time. Overnight travel is required up to 75% of the time. A reliable vehicle and the ability to be away from home Monday through Friday on a regular basis is mandatory.

Why You Should Apply

If you like to work as a part of a team, work alone, travel, contribute to infrastructure builds, work outdoors, receive competitive compensation, and be trained in current practices, then you should apply.

Note

Planview Utility Services Ltd is an Equal Opportunity Employer.
