

DSC Specialist

Come work at a rapidly growing engineering firm that is staffed with industry experts, has great benefits, and prides itself on developing our people.

The Company

Planview Utility Services is an engineering firm that provides engineering design, sub-surface investigation and geographical information related services to telecommunication companies and electric utilities. Our workforce is a mix of veterans of the industry and youthful enthusiastic technical resources. We have pride in our collegial culture and host multiple regular corporate sponsored social activities. Our embrace of the use of technology plays a large part in our success.

The Position

We are currently seeking a qualified person to fill a contract placement role at one of our telecommunication customers, located in Burlington Ontario. The responsibilities would include- Implementing the Datacom Network Monitoring System (Data Service Compliance (DSC) project) and helping the Datacom Team for network solutions

Responsibilities

1. Maintain the Datacom Customer Circuit Record database and convert the existing Datacom circuit information into the Database;
2. Manage the Datacom monitoring system and keep the Datacom network elements updated in the Datacom monitoring system;
3. Assist in the development and engineering of Datacom network monitoring (DSC) project;
4. Work close with the Vendor's Team and the Datacom Team to prepare for the DSC project documents;
5. Help the integration of new Datacom monitoring (DSC) system and the existing Datacom network system;
6. Work with other Datacom engineers for any Layer 2 and 3 solutions, including design, planning, provisioning and documentation.

Qualifications:

1. Bachelor's degree or combination of equivalent education and experience.
2. Familiar with IP/Ethernet networks and network protocols.
3. Cisco/Juniper or other equivalent networking Certification would be an asset.
4. Database management experience and good MS Excel skills would be an asset.

5. Experience with SNMP implementation and network monitoring software.

Preferred Skills

- Experience with utility companies (i.e. electric, gas, telecom, fibre optic);
- Canadian consulting engineering work experience.

The Location

Planview Utility Services has 3 offices – Markham, London and Ottawa. Our clients and their projects are based throughout the province. ***The reporting office for this position is at our telecommunications clients' office in Burlington Ontario..***

Why You Should Apply

If you like to work as a part of a team, work alone, travel, contribute to infrastructure builds, work outdoors, receive competitive compensation, and be trained in current practices, then you should apply.

Note

Planview Utility Services Ltd is an Equal Opportunity Employer.

In accordance with the Accessibility for Ontarians with Disabilities Act, 2005 and the Ontario Human Rights Code, Planview Utility Services Ltd will provide accommodations to applicants with disabilities throughout the recruitment, selection and/or assessment process. If selected to participate in the recruitment, selection and/or assessment process, please inform Human Resources staff of the nature of any accommodation(s) that you may require.
