

NETWORK PROVISIONING SPECIALIST

Come work at a rapidly growing engineering firm that is staffed with industry experts, has great benefits, and prides itself on developing our people.

The Company

Planview Utility Services is an engineering firm that provides engineering design, sub-surface investigation and geographical information related services to telecommunication companies and electric utilities. Our workforce is a mix of veterans of the industry and youthful enthusiastic technical resources. We have pride in our collegial culture and host multiple regular corporate sponsored social activities. Our embrace of the use of technology plays a large part in our success.

The Position

We are currently seeking a qualified Network Provision Specialist (designer) in Nepean, Ontario. This candidate will be responsible to interact with internal and external customers to obtain all necessary information to advise on order status and work efficiency through issues. This individual must possess excellent communication skills, with a strong background in telecommunications systems and a keen ability to solve complex technical problems.

Responsibilities

- Complete projects within prescribed time limits and within budget
- Works closely with GIS, CAD Staff, Project Coordinators and other internal resources to execute projects within a timely fashion, whilst maintaining budgetary restraints
- Complete designs for telecommunications networks in a timely fashion to meet customer service dates using standard technologies; establish project milestones for service delivery
- Facilitate preparation of work packages to assist outside construction forces in building access facilities (underground and/or aerial structures, installing fibre & copper cables, and related equipment)
- Work with all required parties in order to complete pole line design assessments in accordance with local standards
- Analysis of pole lines for required conductor spacing, separation, clearance and physical element strength under ice and wind loading
- Ensure design drawings and calculation packages are complete and ready for review and sealing by a Project Engineer as required
- Develop, create, recommend, design new drawings and standardize it for multi-site application. Include fix/edit in existing drawing to conform to the company's current acceptable design standards
- Quality control for designs and drawings
- Other duties as required

Requirements

- College Diploma in Engineering Technology or higher
- Experience with NetX would be an asset
- Proficient in Microsoft Office Suite & GSuite
- Good analytical skills and good judgment
- Excellent spoken & written communication skills

E inforequest@planview.ca

W www.planview.ca

- Knowledge of technical standards for the design of the outside network (poles, broad band technology, fibre and copper cables) would be an asset
- Able to operate effectively in a fast-paced and highly energetic environment
- Must have excellent supervision skills and self-disciplined
- Capable of working under pressure, sense of urgency, self-motivated
- Ability to multi-task, prioritize responsibilities, team player and adaptable
- Detail oriented and self-motivated a must
- Working experience with AutoCAD 2010 or later is mandatory. THERE WILL BE A CAD TEST
- Valid drivers' licence

Preferred Skills

- Experience with outside plant (OSP) design of utilities (i.e. electric, gas, telecom, fiber optics, etc.)
- Working knowledge of Aerial and Underground designs, drawings, and specifications
- Knowledge of CSA, ESA and Regulation 22.04
- Past experience within a telecommunication & LDC company or Engineering Consultant

The Location

Planview Utility Services has 3 offices – Markham, London and Ottawa. Our clients and their projects are based throughout the province. ***This position will be located in Nepean, Ontario.***

Why You Should Apply

If you like to work as a part of a team, work alone, travel, contribute to infrastructure builds, work outdoors, receive competitive compensation, and be trained in current practices, then you should apply.

Note

Planview Utility Services Ltd is an Equal Opportunity Employer.

In accordance with the Accessibility for Ontarians with Disabilities Act, 2005 and the Ontario Human Rights Code, Planview Utility Services Ltd will provide accommodations to applicants with disabilities throughout the recruitment, selection and/or assessment process.
