

# CABLE DESIGNER

*Come work at a rapidly growing engineering firm that is staffed with industry experts, has great benefits, and prides itself on developing our people.*

## The Company

Planview Utility Services is an engineering firm that provides engineering design, sub-surface investigation and geographical information related services to telecommunication companies and electric utilities. Our workforce is a mix of veterans of the industry and youthful enthusiastic technical resources. We have pride in our collegial culture and host multiple regular corporate sponsored social activities. Our embrace of the use of technology plays a large part in our success.

## The Position

We are currently seeking a qualified Cable Designer for our growing business throughout Ontario. The candidate can report to any of our offices in these areas (Ottawa, London, Markham) and have some work from home opportunities when appropriate. This candidate will gather, oversee and design challenging underground and aerial telecommunication projects. This individual will work closely with project coordinators, clients, CAD technicians, engineers and must possess excellent communication skills.

## Responsibilities

- Collect field information on new and existing plant structures and routes, and analyze the data for the purpose of estimation and design of projects
- Prepare fibre cable designs including splicing counts, experience in copper design and splicing would be an asset.
- Attend site meetings with customer / city / municipality to discuss project scope and propose strategy at the site
- Ability to conduct meeting with survey and design team in house where applicable
- Obtain a Letter of Permission for applicable builds
- Ensure project timelines are met, communicate project status and updates to team members
- Experience and have the knowledge to design aerial and underground infrastructure, fiber, Copper, HFC, and coaxial system design – based on customer standards and needs.
- Work and communicate with all internal teams to accurately address, share and discuss concerns coming to solution within

## Requirements

- Post-Secondary education in telecommunications, civil engineering or a related field. CET would be an asset.
- Working knowledge of Aerial and Underground designs, drawings, and specifications
- Adhere to all applicable Health & Safety regulations, in accordance with legislation and related company policy
- Proficient in Microsoft Office Suite
- Good analytical skills and good judgment
- Excellent spoken & written communication skills
- Working knowledge of AutoCAD
- Able to operate effectively in a fast-paced and highly energetic environment
- Self-motivated with the ability to take initiative and resolve problems independently; monitors own quality of work
- Capable of working under pressure, sense of urgency, self-motivated

**Planview Utility Services Ltd.**

Suite 100, 7270 Woodbine Avenue  
Markham, ON L3R 4B9

**T** 289-800-7110

**E** [inforequest@planview.ca](mailto:inforequest@planview.ca)

**W** [www.planview.ca](http://www.planview.ca)

- Valid G license and clean driving abstract
- Take direction and adhere to strict budgets and deliverable date
- Must be willing to work outdoors in all weather conditions

### The Location

Planview Utility Services has 3 offices – Markham, London and Ottawa. Our clients and their projects are based throughout the province.

### Why You Should Apply

If you like to work as a part of a team, work alone, travel, contribute to infrastructure builds, work outdoors, receive competitive compensation, and be trained in current practices, then you should apply.

### Note

Planview Utility Services Ltd is an Equal Opportunity Employer.

In accordance with the Accessibility for Ontarians with Disabilities Act, 2005 and the Ontario Human Rights Code, Planview Utility Services Ltd will provide accommodations to applicants with disabilities throughout the recruitment, selection and/or assessment process. If selected to participate in the recruitment, selection and/or assessment process, please inform Human Resources staff of the nature of any accommodation(s) that you may require.
