

# Professional Engineer

*Come work at a rapidly growing engineering firm that is staffed with industry experts, has great benefits, and prides itself on developing our people.*

## The Company

Planview Utility Services is an engineering firm that provides engineering design, sub-surface investigation and geographical information related services to telecommunication companies and electric utilities. Our workforce is a mix of veterans of the industry and youthful enthusiastic technical resources. We have pride in our collegial culture and host multiple regular corporate sponsored social activities. Our embrace of the use of technology plays a large part in our success.

## The Position

We are currently seeking a qualified **Professional Engineer - Electrical**. This individual will work closely with project coordinators, clients, CAD technicians, project managers and must possess excellent communication skills.

## Responsibilities

As a Professional Engineer you will:

- Actively seek and expand the current workload of Local Distribution Companies, Utilities and Telecommunication clients
- Create, maintain and implement reoccurring working relationships with local distribution, utility and telecommunication clients
- Responsible for the design, engineering and overall presentation of various LDC driven projects within Ontario
- Working directly with Jr Engineers, EIT's, Project Coordinators and other support staff, foster growth of knowledge within Utility Design, ensuring package issuance meets CSA, Ont Reg 22.04, ESA and other applicable federal, local and client driven codes and specifications
- Responsible for signing and sealing P.Eng designs as they relate to both local distribution designs and telecommunication (3<sup>rd</sup> Party) designs for both aerial and underground projects
- Attend site meetings with customers or third parties. Attend authority conducted utility coordination sessions and meetings; as required.
- Liaison with Municipal/Hydro/Other approving authorities for securing requirements and approvals to obtain entry for various Planview Utility Services Ltd customers to construct plant or infrastructure within the jurisdiction of said authority
- Assign tasks, budgets and provide support to internal resources for completion of designs. Manage and track budgetary and financial information and provide reports as requested to the division manager
- Review and implement quality control processes or documentation from resources to adhere to Planview Utility Services Ltd and third-party design requirements and standards.
- Responsible for ensuring key dates and benchmarks are met by internal and external resources to maintain critical project schedules and project completion deadlines for customers
- Responsible for maintaining overall project budgets, other costs and invoicing for multiple projects.

**Planview Utility Services Ltd.**

Suite 201, 7270 Woodbine Avenue  
Markham, ON L3R 4B9

**T** 289-800-7110

**E** [inforequest@planview.ca](mailto:inforequest@planview.ca)

**W** [www.planview.ca](http://www.planview.ca)

- The ongoing development of Planview USL's CAD processes, design standards and methodologies to further develop design and operational efficiencies
- Other activities as required.
- Capable of working under pressure, sense of urgency, self-motivated
- Valid G license and clean driving abstract

### **Specific Requirements of the position**

- Strong problem solving and troubleshooting skills
- P.Eng certification, holding an active license in good standing in Ontario
- Minimum 2+ years experience in an electrical or structural design role, preferably with a utility
- Past project management and resource supervisory role with a proven track record of success considered an asset
- Excellent written and oral communication skills
- The ability to deal with multiple projects and conflicting deadlines
- Ability to read and interpret engineering work plans.
- Strong knowledge of CSA No15, ESA, Ont Regulation 22.04 and OEB requirements and regulations
- Must have a personal vehicle, valid Ontario driver's license
- Familiar with industry codes, engineering practices, standards and construction methods.
- Knowledge of Microsoft Office productivity software.

### **The Location**

Planview Utility Services has 3 offices – Markham, London and Ottawa. Our clients and their projects are based throughout the province.

### **Why You Should Apply**

If you like to work as a part of a team, work alone, travel, contribute to infrastructure builds, work outdoors, receive competitive compensation, and be trained in current practices, then you should apply.

### **Note**

Planview Utility Services Ltd is an Equal Opportunity Employer.

In accordance with the Accessibility for Ontarians with Disabilities Act, 2005 and the Ontario Human Rights Code, Planview Utility Services Ltd will provide accommodations to applicants with disabilities throughout the recruitment, selection and/or assessment process. If selected to participate in the recruitment, selection and/or assessment process, please inform Human Resources staff of the nature of any accommodation(s) that you may require.
